DEAN'S DESK

Happy Easter! I think, at this time of year, especially when Easter comes late, of Gerard Manley Hopkins:

The Holy Ghost over the bent
World broods with warm breast
and with, ah! bright wings.

Phil will be administrative assistant there next year.

Professor Thornton suffered a mild heart attack April 2nd; he is on the mend but will be away for the rest of this semester. Professors Rodes and Beytagh are handling his courses. Professor Beytagh has agreed to assume the duties of 1973 London Summer Director...Steve Martinek, '74L, was awarded the first Indiana Bar Foundation Scholarship, an award provided out of Foundation resources by the Indiana State Bar Association...Matt Connelly, '75L, won a scholarship in honor of the late Judge Thomas Aureli of the New York Supreme Court, provided by Jerome Nealon of the Binghamton Bar...Jim Cavanaugh, new executive director of the Legal Aid and Defender Association, advises that 77 members of the Class of 1975 have expressed interest in LADA membership...Admissions as of April 15: 171 (compared to 144 on April 15, 1972), from 1363 applications (1532), 538 of whom (675) sought scholarship assistance.

My essay "Collaboration on Studying Law" is in the current Journal of Legal Education.

of practice in New York City and a year of training for law teaching at the University of Michigan. He was educated at the University of Pennsylvania and the Harvard Law School...We will have two research associates on our 1973-74 staff: Dr. Stanley Lisocki, Polish lawyer and Columbia business executive, whose appointment had been announced earlier; and Kathleen Cekanski, '73L, who will be employed by the University as a hall rector next year and who will spend as much time as her student-personnel duties allow in the law school...Associate Dean Link will be acting dean of the Law School from June 15, 1973, until August 15, 1973, while I serve on the faculty of the London Summer Program...Mrs. Kathryn Large (formerly Miss Kathryn Klem) has been appointed acquisitions librarian in the law school; she will be the fourth professional on our library staff.

This year's volume of The American Journal of Jurisprudence has articles by Professors Goerner and McInerney of the N.D. faculty; by Professor Louis M. Brown and me; and by seven other celebrated jurists alongside four reviews, one by Dr. Robert Redmount...My mailed request for addresses of alumni carelessly referred to "Notre Dame men who are lawyers," a piece of careless sexism which has not been accurate since 1970. The 1973 Law Alumni Directory will be the first to list Notre Dame Women Lawyers.

He conferred with representatives of a large west-coast power industry, on sponsorship of programs here, and on field work for our environmental-law interns. DEAN'S DESK

Nineteen members of the Law Class of 1973 will spend their first year or two in judicial clerkships—six in the federal Courts of Appeal, five in federal district courts, and eight in state courts. That is an unusually high percentage, even in a large class... We will have two summer schools this year, one, involving four of our regular faculty, here on campus, and, for the fourth consecutive year, a six week summer school on the campus of Brunel University, near London; four of our faculty and three British teachers will staff the Brunel session... Our remodelled law building is now in the final stages of preparation; we expect to begin fall classes there in August and to have it open for our alumni on home football Saturdays (and any other time you are in the neighborhood).
