He came to Notre Dame as an Assistant Professor in 1965. He served as Provincial Superior of the Holy Cross Fathers of the Indiana Province from 1973 to 1979. Under his tutelage, the Center has garnered many grants and accolades. Congratulation, Bill, on this fine achievement. You make us proud!

ALUM WINS COMMUNITY SERVICE AWARD

John E. Tyler III, NDLS '89 and an associate at Lathrop & Norquist in Kansas City, has received the prestigious Tom Cochran Community Service Award. The award is presented annually by the Young Lawyer's Section of the Missouri Bar to a lawyer whose "service and professionalism have significantly enhanced (the) community."

John received both his bachelor's and law degrees from Notre Dame. While at NDLS, he served as articles editor and contributing author to the Journal of College and University Law.

He has served on the board of
directors of the Genesis School in Kansas City since 1990. The Genesis School, a nationally recognized and accredited alternative inner-city high school, provides educational, counseling, pre-vocational and job-placement services. It is the only alternative school to achieve the status of a Blue Ribbon School of Excellence as recognized by President Bush. John, who had served terms as vice-president of administration and secretary, was recently elected president of the twenty-five member board.

John also serves on the board of directors of Archbishop O’Hara High School and is a past president of that board. He founded the O’Hara alumni association and served as its chairman from 1990 through 1994.

Since 1993 he has been general counsel and a member of the board of Missourians for Students at Risk, a statewide organization dedicated to addressing issues related to alternative education. John has also been a member of the board of directors of the Center for Management Assistance, a non-profit organization providing consulting services to facilitate the success of other non-profits. All of us at NDLS send hearty congratulations to John on this wonderful achievement.

NDLS ALUM ELECTED TO CHICAGO BUSINESS HALL OF FAME

John F. Sandner, NDLS ’68, a member of N.D.’s Board of Trustees and chairman of the board of the Chicago Mercantile Exchange, has been selected as a 1995 Laureate of the Chicago Business Hall of Fame. The Chicago Business Hall of Fame was established in 1983 by the Board of Directors of Junior Achievement of Chicago to honor the champions of free enterprise and to present business role models to youth. A committee of the Chicagoland Chamber of Commerce nominates the laureates. The tribute to Jack Sandner stated: "[H]e has garnered for the Merc the distinctions of the world’s largest financial exchange, the world’s best futures exchange and the pacesetter of the financial industry."

Jack grew up on Chicago’s South side and overcame many challenges to become high-school valedictorian. At NDLS, he won the moot-court championship and received the Dean’s Award. He purchased an exchange seat while a practicing attorney who also represented the indigent pro bono before the Seventh Circuit. In 1980, at age thirty-eight, he was elected the youngest chairman of the Merc’s 2,725 individuals and 90 firms.

A spokesman for the futures industry, he has testified often before U.S. Senate and House committees. He was the industry’s sole representative at President Clinton’s 1992 Little Rock economic summit. His blueprint for streamlining federal financial regulation has sparked interest with federal agencies and on Capitol Hill.

The father of seven adopted children, he sits on the boards of sixteen business, civic and educational groups. He has received a number of top awards from organizations such as the American Jewish Committee and the Juvenile Diabetes Foundation.

NEWS FROM THE LEGAL AID CLINIC

In September, representatives of our Immigration Clinic appeared before Judge Vinikoor in Chicago in a deportation hearing for an eighteen-year-old client. That client had been forcibly conscripted into the
Honduran Army, was mistreated and was forced to flee. The judge refused to grant asylum.

The Clinic had secured asylum for his brother one year before; the brother had been so brutalized by the army that he had lost a leg and a good portion of his back. The brother, only 25 years old, died in March of a brain tumor.

In an October asylum hearing, the Clinic represented two Tutsi lawyers, husband and wife, from Burundi. The wife has a master's in law and her husband, besides being a lawyer, is a minister who preached ethnic harmony between the Hutus and Tutsis. His church was burned and he became a target. His three brothers, their wives and their children were all killed by extremist Hutus. Father Patrick Gaffney, of our Anthropology Department, played an important role in the hearing by corroborating the husband's story of conditions in Burundi. In this case, asylum was granted, and the clients expressed deep gratitude to the Notre Dame Law School and the students who put their case together.

December may bring yet another asylum hearing, this time for a Rwandan client. That client, a medical doctor, fled Rwanda with his family the day of the coup.

Eileen Doran and John Whelan, a third-year NDLS student, sued two state agencies, Healthwin Hospital and two individuals to secure a restraining order against moving the last patient remaining in the hospital's thirty-two bed, acute-care unit. Judge Jerome Frese set a hearing for December 8. Judge Chamblee issued the temporary restraining order.
The College of Law

THE 1925 DOME
(The University Yearbook)

University Administration

The College of Law

First we have drifted. From now on, may we sail a definite course. Our law school presents an organized and comprehensive program. The beginning of 1925 augurs well for the Notre Dame Law School. We have recently been admitted to the Association of American Law Schools, an association of the great law schools of the country whose purpose is to raise the standard of legal education. Beginning this year two years of college work are required for entrance. This alone is a decided step in raising our standard.

Now a word to the class of 1925. The question that will face you in the future will not be, "Do you know the law?", but "Are you a man?" No man can be a lawyer who is only a lawyer. Your success in the profession will not be judged by the size of your purse, but by the service you render your fellow man. Lord Brougham once defined a lawyer as, "a legal gentleman who rescues your estate from your enemies and keeps it for himself." Frequently such is the layman's measure of the lawyer. May the class of 1925 believe that measure.

Racial hatred, religious bigotry, social discontent, and many of the so-called ills of society are largely due to ignorance of our constitution and laws. No men are better qualified to deal in the solution of these problems than those versed in the law. It devolves upon you to take part in the affairs of government—local, state, and national. Are you equal to the occasion not only as a lawyer but as a man? Remember always that the object of the law is the administration of justice. Keep up with the law and its progress. Your school days have just begun. But to know only law is not to know the law. No man can be a law-maker, law-interpreter or a law-administrator who does not keep abreast of the time. There can be no success in the law for those who fail to touch elbows with their fellow-men and who lose sight of man's problems.

Finally, as Notre Dame men you have imbibed the Notre Dame spirit and ideals. As you enter that great profession with a keen intellect, virile body and noble soul, may you add to its luster. As you take your place in the ranks of American citizenship, may you, by your works, example and influence reflect credit upon yourself and upon your Alma Mater.

Professor Thomas B. Howe
